

SOLUTION FRAME

Clean lines, a straightforward design, these are the features that make Shaker doors timeless. A door that adds effortless style to any home needs a frame and glass to complement its unique features. The Solution series doorlites feature a low-profile, flat frame and patterned glass that was created to complement the clean, simple designs of our Shaker and flush doors. The Solution Doorlite Series is available in various sizes, which makes it easy to create and customize an infinite number of contemporary looks. The screwless design eliminates holes and plugs and saves valuable time in installation as a traditional screw frame requires extra time to install screws and plugs. The frame features a patented interlocking joint and compression seal that adheres to the door and creates a powerful compression seal and bond. It safely locks decorative glass in place, while beautifully illuminating and bringing out the features of the glass. Its versatility matches many styles, such as Modern, Craftsman, Mid-Century, and so many more. There are no screw holes, is built to resist warping, and is available in a textured vertical grain pattern in both white and tan.

Rooftop Glass • DRS0080

FEATURES & BENEFITS

- No unsightly plugs or screw holes.
- Available in white or tan.
- Textured vertical grain pattern.
- Matches various architectural styles.
- Shaker style low profile.
- Patented frame system.
- Built to resist warping.
